

ZENEX TECHNOLOGIES PTE LTD

*“Bringing
the Zen
Experience
back to I.T.”*

OUR HISTORY

Zenex Technologies Pte Ltd was started in 2015 by a group of former SAP and business consultants. Our aim was to help businesses run efficiently and effectively by simplifying business processes.

OUR FOCUS

Today at Zenex, our focus is to help our clients achieve the best in business optimisation. We leverage on our years of experience in various industries and localisations.

OUR STRATEGY

Our Strategy to any challenges is always to listen to your needs, to understand your pains, and identify the leaks before embarking on any solution. Mapping all these to Industry Best Practices.

OUR BELIEFS

In Zenex, we believe in:

- Zero carbon footprint
- Social responsibility
- Innovation and Future Proofing

BUSINESS SOLUTIONS

Enterprise Resource Planning

Using a cockpit approach to manage and take control of your business ensuring success.

Data Analytics

All the data in the world means nothing if you cannot understand and make full use of it to your advantage.

Zenex Products

TECHNOLOGY:

Technology Sustainability

In Zenex, we achieve technology sustainability by integrating environmentally and socially responsible practices. This includes adopting energy-efficient technologies, embracing renewable energy sources and optimising data management.

Back Office Automation

In Zenex, we aim to improve efficiency, reduce manual effort, minimise errors, and improve overall productivity.

We achieve back office automation by assessing current processes and identifying pain points, selecting appropriate automation tools and software, pilot testing and optimisation, and integrating systems and processes.
